

I am in a placement and have discovered I am pregnant, what should I do?

Please let Opus know as soon as possible. We can then liaise with your manager but also help and support you going forward.

Will I be entitled to Maternity Pay?

To qualify for SMP you need to have worked for your employer continuously for at least 26 weeks continuing into the 'qualifying week' - the 15th week before the expected week of childbirth.

You may qualify for SMP or Maternity allowance and our team here can help you with this.

What information do you need from you?

We will require a copy of your MAT1B form that you can get from your Midwife or health professional.
